RELIABILITY IN EVERY REVOLUTION

Our Vertical Integration Process Ensures Superior Quality & Value

By manufacturing our own cord and fabric, owning rubber tree plantations and belt molds, and mixing chemicals to create our own compounds we guarantee top quality belts and eliminate inflated pricing.

Why D&D?

BECAUSE TESTING PROVES OUR BELTS ARE THE BEST!

In independent testing conducted by the Akron Rubber Development Laboratory, Inc.*, D&D belts outperformed Gates and Browning belts in break force strength by an average of 17% - 34.7%, and within an average of 1.16% - 3% in elongation.

This clearly shows our belts not only match but often exceed the quality of those from an industry leader, and are offered at a more competitive price thanks to our vertical integration manufacturing process.

It's a win-win for both our partners and their customers.

* Independent testing results available upon request

** Additional fees assessed for emergencies.
