

RELIABILITY IN EVERY REVOLUTION

Why D&D for HVAC?

Our Vertical Integration Process Ensures Superior Quality & Value

By manufacturing our own cord and fabric, owning rubber tree plantations and belt molds, and mixing chemicals to create our own compounds we eliminate reliance on external manufacturers for essential materials. This guarantees top quality belts and eliminates inflated pricing.

BECAUSE TESTING PROVES OUR BELTS ARE THE BEST!

In independent testing conducted by the Akron Rubber Development Laboratory, Inc.*, D&D belts outperformed Browning belts in overall break force strength, outperforming them by an average of 34.7% across all four samples tested. Additionally, in the same third-party tests for elongation, D&D belts performed within an average of 1.16%.

This clearly shows our belts not only match but often exceed the quality of those from an industry leader for HVAC, and are offered at a more competitive price thanks to our vertical integration manufacturing process. It's a win-win for both our partners and their customers.

TOP SALES & SUPPORT

- Over 60 sales & customer service reps
- Phones answered by real people
- Online inventory search & order portal
- Quick response times
- Midwest nice
